Construction Representative  
for Ingham Regional Medical Center

Re: Superior Electric of Lansing, Inc.

I was contacted by Mark Stygles, Project Manager for Superior Electric, and asked if I would be willing to write a recommendation for Superior Electric. Without hesitation I agreed. Superior Electric has been a valuable member of my construction teams on the many projects I have managed over the years. Since becoming Senior Project Coordinator in 1999 my experiences with Superior have been excellent. Their professionalism, ability to pay attention to details, and their knowledge of the electrical profession has been exemplary. They quickly grasped Sparrow's expectations and standards, and have bid all projects accordingly, even if one of my architects missed them in the specs. Superior's associates are familiar with infection control restraints and risk management within a hospital setting, and are used to abiding by hospital policies and safety standards.

I strongly recommend Superior Electric for your electrical contractor needs, large or small. I have always looked forward to bid opening days and finding Superior Electric's name included in the list of subcontractors. Please feel free to contact me.

Sincerely,

Curt Ritsema
